

WINTER 2016 SALES PROMOTION

LIMITED TIME ONLY - Valid from January 11, 2016 - March 17, 2016

UNE-MiLL

The RME Unemill uses unequal flute spacing geometry designed to provide smooth machining in both roughing & finishing applications of steels & hard to machine materials.

- Minimizes chatter for smooth machining
- Roughing and finishing with the same tool
- Full radial cuts at depths of 1 x diameter
- State of the art coatings for extended tool life

Use promo-code **UNE0116** to place your order today!
